

## LEPL „High School of Justice“ – Corporate Quality Policy

**Mission of the Organization** is to provide: initial professional training to justice listeners – individuals to be appointed as judges within the system of common courts of Georgia; in-service training for sitting judges for their professional development; also initial and in-service training for candidate assistant judges and other specialists with the purpose of recruiting the system of common courts of Georgia with highly qualified specialists.

**Aim of the High School of Justice** is to ensure deepening of theoretical knowledge and development of the skills necessary for practical work of justice listeners, also to facilitate cognizance of future responsibility and liberty of acting of justice listeners within statutory frameworks, support gradual integration of justice listeners into the social environment in which they will have to work as judges in the future.

**Quality Policy** - By improving its current service, within the framework of the legislation, the organization strives to provide service which exceeds the expectations of its target groups. This is achievable due to maintaining the existing quality of service and extending the variety of services provided.

In order to carry out the quality policy, the Organization has defined **aims and strategic directions** in its field of operation. The Organization utilizes implemented quality management system in order to duly carry out its aims and strategy. This system is the best support to the efficiency of management processes, to the continuous improvement of efficacy, to the due planning of quality ensuring strategy and to the accurate orientation on the interests of the focus groups.

In order to implement quality policy the Organization aims at:

- Extending educative activities and permanent increase of permitted income;
- Improving internal processes;
- Improving the quality of programs implemented and training services provided;
- Increasing the level of satisfaction of the focus group;
- Continuously improving the qualification of the teachers, trainers and the staff;
- Increasing the motivation of the teachers, trainers and the staff;
- Continuously improving the efficiency and efficacy of the quality management system.
